About Me

To secure a challenging and fulfilling position in a reputable organization where I can leverage my skills, knowledge, and determination to contribute to the growth and success of the company.

Experience

Microcript(Intern)

2023

Key responsibilities:

- Collaborating with the design team to develop user-friendly and visually appealing interfaces for websites and applications.
- Conducting user research and creating user personas to inform the design process.
- Creating wireframes and interactive prototypes to demonstrate design concepts and gather feedback.
- Creating pixel-perfect designs using design tools such as Sketch, Photoshop, or Figma.
- Conducting usability testing to gather data on user interactions and identifying areas for improvement.
- Analyzing user data and feedback to make data-driven design decisions and iterate on design concepts.
- Working closely with developers to ensure design implementation meets specifications and user needs.
- Keeping up-to-date with industry trends and best practices in UI/UX design to continually improve design quality.

Projects

Disco Party Booking Website

Disco Party Booking Website was to provide users with a platform to book disco parties for various occasions.

Key responsibilities:

- I was responsible for designing the layout of the website and developing its functionalities. This included creating the user interface, implementing the booking system, and integrating payment gateways.
